

A 92.9/6 : Pou 1-1 (8-62)

HATCHERY PRODUCTION
July 1962

Chick Production

Chick output by hatcheries during July totaled 206,384,000 chicks compared with 208,729,000 in July 1961. Production of broiler chicks, at 182,862,000 was down 2 percent from July 1961. Eggs in incubators on August 1 indicate that the hatch in August will be slightly below that of a year ago. Production of broiler chicks January through July totaled 1,329,111,000, compared with 1,367,758,000 during this period in 1961--down 3 percent.

Egg-type chicks hatched in July totaled 23,522,000--up 10 percent from July 1961. During the first 7 months of 1962, the hatch of egg-type chicks totaled 389,514,000--down 7 percent from these months in 1961. Eggs in incubators on August 1 indicate a larger egg-type hatch in August 1962 than last year.

Poult Production

The hatch of heavy breed poults during July totaled 5,984,000--down 1 percent from the hatch in July 1961. Output of heavy white breeds at 2,844,000 was down 7 percent. Output of other heavy breeds (mostly broad breasted bronze) at 3,140,000 was up 6 percent from July 1961. Production of light breeds totaled 1,489,000--down 17 percent from July 1961.

Since the first of the year, the output of turkey poults totaled 88,541,000--down 16 percent from the comparable output in 1961. The cumulative hatch of heavy white breeds was 26,957,000, down 6 percent; other heavy breeds 54,562,000, down 18 percent; and light breeds 7,022,000, down 32 percent. Turkey eggs in incubators on August 1 indicate that the hatch of heavy and light breeds in August will be smaller than in August 1961.
